Control bar for Vibe II Trainer Kite

\$ 45

Description: Makes your [Vibe II](#) flying with a bar !!!

This is the perfect bar that can be adjusted to your new Vibe II trainer kite to get a better feeling on how to fly the kite with a control bar !

A lot of kitefliers start out with a two line kite, either a sportkite or a 2-line foil such as the Vibe, at Peter Lynn we offer several stylish ways to control your 2-liner.

The Brand [New Peter Lynn Trainer Kite "Vibe II"](#) is the perfect entry level kite for all ages. The Vibe II is fun and easy to fly, but challenging enough as the Vibe II flies fast and the power can build up in stronger winds. Like every Peter Lynn kite, the Vibe II has been designed to fly well throughout the whole wind window in any kind of wind conditions. This will keep the kite challenging to fly.

The Vibe II comes in 5 different sizes, giving everyone the option to fly a kite that suits their skills and weight. The Vibe II flies easy in light winds and is very stable, allowing any kite flyer at any level to feel confident to fly it. The Vibe II is difficult to over-steer, even the smaller sizes Vibe II stay in shape when pulling one handle too much.
