North Gonzales 2010

\$ 749

North Gonzales

The North Gonzales 2010 is a true all-terrain machine. Medium width and soft forgiving flex the North Gonzales is a great free-ride board with plenty of comfort for cruising and jumping. Great upwind and early planing abilities make this a very attractive freeride board to suit nearly every size of rider out there. It is a cruisy twin-tip with plenty of comfort for every-day riding!

Unique design features such as rounded rails, soft flex and special carving fins makes the North Gonzales a great board for getting up and riding as soon as possible!

The control is further enhanced by a wood sandwich construction and soft flex characterisitcs. Small swept fins give you endless grip and very little drag to rip high speed carves in flat water and waves and help you load up for jumps. The soft flex and good absorption allow you to ride effortlessly while the new carving fins give you outstanding grip and acceleration allowing for jumps, turns and riding through waves. A great freeriding board, even in the toughest conditions, the North Gonzales 2010 makes riding easier and lets you focus on just getting out and riding!

Who is the board designed for:

The North Gonzales 2010, with its wide range of use, gives you great value for the money and is the clear choice for anyone who wants one board for all conditions. The North Gonzales lets you enjoy the versatility of freeridingl, carving turns, and jumping.
